DETAILED ACTION

Prosecution Re-opened

1. The prosecution has been re-opened in view of the Appeal Brief.

Claim Rejections - 35 USC § 112

1. Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- a. Claims 1 and 17 recite that the rods are "lockable"; however, this functional language is unsupported by the claimed structure. Therefore the claim is not definite.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Palenik III (3987579).

Palenik discloses an universal fixture having a plurality of dual axis clamps (38) each rotatably and slidably secured rods (fig.3), and base (13). Palenick III discloses enough parts to anticipate all claim pluralities.

Response to Arguments

3. **Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.**

- b. Applicant's arguments filed 12/15/03 have been fully considered but they are not persuasive. The rejections of the claim is in regard to the lockable

limitation not being clearly recited. The applicant is relying on this for patentability so all arguments are moot until the 112 issue is addressed.
